

CAPABILITY STATEMENT

About Link

We provide consistent and cost-effective civil and structural engineering solutions, through modern proactive design and technical expertise.

We build trusted relationships with our clients and multi-disciplinary colleagues and the majority of our work is generated through referrals due to the strength of our reputation.

Established in 2019, we have successfully grown the size of our team and our offering through smart investment decisions, keeping to a clear business plan.

**TECHNICALLY SMART
TRUST – CARE – GROWTH**

SERVICES AND SECTORS

PLANNING SUPPORT + CIVIL ENGINEERING + STRUCTURAL ENGINEERING + BUILDING INVESTIGATION + EXPERT

- Our client base covers a range of sectors including **Logistics & Manufacturing, Development Infrastructure & Residential**.
- As specialist civil and structural engineers, we offer many services at various points in a project's life cycle.
- We seek to eliminate risk through good design and communication practices to fulfil our operating requirements within the CDM regulations.
- We use software such as AutoCAD, Revit and other industry accepted design software to create efficiency and quality in our designs.
- We have an established supply chain of specialists such as traffic signalling, lighting design, bridge design, ground improvements, transport planning and environmental related services. We collaborate with them to deliver to our clients' needs.

CLIENTS

- We are proud to work with a variety of clients, from private individuals to residential and commercial developers, whether a scheme is big or small every scheme it's important to us because it's important to our client.

“Link is one of the best engineering consultancy teams I've worked with. The team understand my needs and consistently meet them. I can trust Link to deliver large volumes of technical detail, to be responsive and to be solution-focused.”

Simon Taylor | Technical Director | L&Q Estates

PROJECTS

- Link's directors and engineers have extensive experience of a wide variety of projects including several major projects, with construction values exceeding £100m.
- We offer a detailed understanding of the whole life cycle of a project, not just the approval stage. Our team has extensive experience of working with water companies, highway authorities and local authorities. We have developed audit trail trackers and pre start forms as a means of fostering progress with authorities

Example projects include:

Lyons Park – Coventry – Goodman

Area 10 South – Milton Keynes – Redlawn Land Limited

Stallings Lane – Kingswinford – Keepmoat Homes
